

Take It & Make It

December 2022

Snow Jar Centerpiece

Supplies Provided: mason jar, jute, craft glue, tea light, pine cone and berry accent and a paint brush.

1. Wrap your jute around the top of the jar a few times and tie a small knot in the jute to hold it in place. Leave 2-3 inches to tie your accent piece to.

2. Coat the top surface of the mason jar with your glue, I applied glue to the top 1/4 of the jar. Be sure to move quickly so the glue doesn't dry before applying your snow. Take a handful of snow and sprinkle all over the glued surface rotating the jar as you go. Set aside and let dry 20 minutes.

3. Tie your pine and berry accent to the twine
4. Add the rest of your snow to the bottom of your jar and drop your tea light in! Enjoy as a centerpiece for the holidays.
